

Versara[®] is Here

MBS Mortgage Systems

12/11/2015

Versara Release Jan 1, 2016

Hello Friends:

It gives us great pleasure to announce that *Versara* is just a few short weeks away from its January 1 release.

When we set out on our journey to create a Commercial Mortgage solution from scratch we had no idea how successful we would be. *Versara* is without a doubt the most versatile, user friendly system on the market today. Its familiar Microsoft Office look and feel lets people intuitively navigate throughout. The customizable appearance and powerful smart grids let users view only the data that's relevant to them. No matter what department you are in, front, middle or back office, *Versara* can display the data you want to see.

Versara was designed from the ground up to be a complete front to back office

solution. All your Origination, Servicing, Accounting, and Portfolio Management needs are incorporated in one system, eliminating any need for multiple solutions.

Reporting for the front office, back office, and regulatory requirements are made easy. *Versara* offers Dashboards for a real-time graphical snapshot of your data, standard reports for your accounting and regulatory needs, and an ad-hoc report writer for customization.

Yes, we are all very proud of what we have accomplished here at MBS. We are ready to embrace the future and ring in the New Year with *Versara*. Are you ready to join us?

Yours truly,

Pam, Joe, and Len

What sets us Apart

One can differentiate MBS Mortgage Systems from other vendors in a variety of ways. First and foremost, no other vendor can match our combination of experience in the industry and our capability to deliver the most versatile, user friendly Commercial Mortgage system available today. Secondly, *Versara* was and will continue to be completely developed in house at our home office. Third, we answer the phone. The knowledgeable support we give our clients will never be matched by any other vendor out there. We do not hand people off once you come on board. Your relationship with the same core people you meet from day one will last the lifetime of our partnership. And lastly, we love what we do; "opera tua, cupidis," "your work, our passion."
